INTRODUCTION

You Earn Token is a decentralized token built on binance smart chain. The token is for a gaming app in which users will be able to play games while also collecting rewards from businesses that advertise on the app.

Our Goal

The game's goals are to promote businesses by giving away prizes, and You earn's goals are to bring crypto currency closer to businesses that accept it as a means of payment.

What Makes Us Special

You earn is supported and powered by our app where users can play games, connect, and earn free prizes and rewards. Stores and businesses can promote for nearly nothing if they provide customers prizes and rewards.

Our Community

You Earn Token is one of the fastest growing and most loved by communities in cryptocurrency and we believe that only together we are strong. Community is everything and You Earn Coin strives to include everyone.
